

InterContinental Singapore® Secured Two Awards at the 24th World Travel Awards™

Singapore, 6 June 2017 – InterContinental Singapore, the flagship hotel of InterContinental Hotels Group (IHG®) and a luxury landmark set in the heart of the arts and cultural districts – Bugis and Bras Basah, has been awarded **Singapore’s Leading Conference Hotel** and **Singapore’s Leading Hotel** at the World Travel Awards Asia & Australasia Gala Ceremony 2017 held in Shanghai, China.

The World Travel Awards was established in 1993 to acknowledge, reward and celebrate excellence across all sectors of the tourism industry. Today, the brand is recognised globally as one of the most influential and prestigious awards in the travel industry.

“It is an honour to receive these esteemed awards and to be recognised by the industry as we embark on a journey towards inspiring our guests with utmost attention and thoughtful touches to enrich their experience. This achievement is a testament to the team’s dedication and passion, and I am proud to celebrate this moment with them,” said Mr Michael Martin, General Manager of InterContinental Singapore and Regional General Manager of IHG Singapore, Malaysia and Batam.

InterContinental Singapore completed its multi-million dollar renovation project with new guest rooms and public spaces in April 2016, including the hotel lobby, tower guest rooms and suites, fitness centre, European dining restaurant Ash & Elm as well as The Lobby Lounge. Drawing on the tapestry of the city’s charm, the hotel décor now encompasses intricate elements of local culture and heritage.

With over 1,000 square metres of elegantly furnished conference and function space, InterContinental Singapore offers a range of fully equipped rooms to accommodate events for as few as 12 delegates, to as many as 500. Enhanced by LCD projectors, sophisticated audio, light and high-speed Internet facilities, and on-site technical support, every element is designed to capture a genuine sense of place that will inspire delegates and get results.
